Kosher Fish Gelatin

Nile Perch is considered an excellent source for the production of pure, high-quality gelatin. Unlike other fish, the Nile Perch of Lake Victoria benefits from a relatively warm environment, Hence, the gelatin produced from its thick skin has exceptionally high protein value.

Halal Bovine Gelatin

The local Eastern -African region provides a remarkable source for high-quality gelatin, from cows that graze on organic pastures. Thanks to the region's unique climate and their natural diet, the gelatin derived from these hides is known for its high protein content.
